

# **CYANOACRYLATES** Adhesives

*Instant, strong bonds for most materials*

## **ADHESIVE SYSTEMS** Cyanoacrylates

Advance Performance Series Cyanoacrylates

RP 100 - Ethyl based, Low viscosity (100cps) For general purpose bonding

RP2400 - Ethyl based, High viscosity (2400 cps) For general purpose bonding

APS Gel - Ethyl based gel ..... For general purpose bonding

*Other formulations available.*      Packaged in 1 ounce & 1 pound bottles

## **LORD** Cyanoacrylates

Lord cyanoacrylates are incredibly strong and fast setting, one component, instant cure adhesives. These adhesives form bonds that are non-brittle and have longer lives than conventional cyanoacrylates. They exhibit better-than-average resistance to high temperatures. Packaged in 14 gm, 28 gm, 56 gm bottles

## **PERMABOND** Cyanoacrylates

Permabond offer a full range of specialty cyanoacrylates

260 Series - maximum purity low frosting cyanos

790 Series - ultra fast cure for difficult to bond surfaces

USP Grade - highest safety and biocompatibility characteristics

Permabond Plus series - low odor, non-frosting

Variable packaging based on product: 3 gram, 1/3oz, 1oz & 1 pound

## **CROSSLINK** Cyanoacrylates

Crosslink technology offers the most complete range of cyanoacrylate instant adhesives in the industry. The technology is divided into Standard and Advanced grades. Advanced grades allow cyanoacrylates to boldly go where none have gone before.

Packaging from 1oz bottles up
